CFSI is pleased to announce that an additional four local civil society organization (CSOs) have been selected to receive grants under the Capacity Strengthening for Localization Project (CSLP) which will assist ongoing response and recovery activities for communities affected by the Sarangani earthquake.

Supported by the Australia in The Philippines, the CSLP aims to strengthen the capacity of the Philippine Inclusive NGO Network (PINGON) and support locally led humanitarian action and disaster risk reduction initiatives through grants to local CSOs. A total of eleven (11) local CSOs have been provided with grants under the CSLP.

1. Conrado & Ladislawa Alcantara Foundation, Inc.

“Tuloy-Aralan Learning Recovery Project” aims to restore safe, inclusive, and child-friendly learning opportunities for earthquake-affected learners in Malapatan, Sarangani Province through the establishment of Continuity Learning Spaces.

2. Mahintana Foundation, Inc.

“Emergency Response Through Solar Power for Aid, Resilience, and Timely Action” aims to strengthen humanitarian response and early recovery through the provision of portable and renewable energy for disaster-affected communities in Sarangani Province.

3. OND Hesed Foundation Inc.

“Rebuilding Indigenous People’s Lives of Sarangani Earthquake Survivors” aims to improve access to life-saving humanitarian support and reduce protection risks for vulnerable women and children within affected IP communities through community-driven early recovery interventions focused on training and support for climate-smart livelihoods.

4. RD Foundation, Inc.

“Project PAGLIG-ON: An Integrated Community-Based Disaster Recovery and Resilience Initiative” aims to strengthen the preparedness and recovery capacities of earthquake-affected communities in General Santos City and Sarangani Province through the promotion of psychosocial well-being, family strengthening, disaster preparedness, and community resilience.

Supported by the Australia in The Philippines, the CSLP aims to strengthen the capacity of the Philippine Inclusive NGO Network (PINGON) and support locally led humanitarian action and disaster risk reduction initiatives through grants to local CSOs.

1. Lokal Lab Siargao

"Siargao Civil Society Disaster Preparedness and Coordination Playbook" will be developed with local Disaster Risk Reduction and Management Office (DRRMO) actors, community organizations, and other relevant stakeholders to strengthen disaster preparedness and coordination among local CSOs and businesses in Siargao.

2. Maranao People Development Center (MARADECA)

"Strengthening Community-based Disaster Risk Reduction and Climate Resilience in Vulnerable Communities in Lanao del Sur" through localized and participatory approaches.

3. Philippine Relief And Development Services, Inc. (PHILRADS)

"Shelter Strengthening" aims to enhance the disaster preparedness and resilience of vulnerable households in typhoon-prone communities in the Municipality of Baggao in Cagayan Province through capacity building and the provision of essential shelter-strengthening materials.

4. Ranao Women & Children Resource Center, Inc. (RWCRC)

"Strengthening Child Protection Mechanism in the Municipalities of Matanog and Balabagan in Lanao del Sur" aims to contribute to more resilient communities and enhance response and recovery efforts through capacity strengthening, awareness raising, policy advocacy, and community empowerment.

5. United Youth for Peace and Development-Relief Assistance Network and Organization (UNYPAD-Lanao)

"Lake Lanao Shield: Ecosystem-Based Disaster Risk Reduction (DRR) and Climate Adaptation Led by Youth and Fisher Folk" aims to strengthen DRR and management systems with concrete ecosystem rehabilitation, ensuring that both planning and implementation are locally owned and sustainable.
